

Because your mind  
works better when  
your body moves.

Aeris 3Dee is the office chair that  
makes sitting a dynamic experience.

As its name suggests, the Aeris 3Dee  
moves both vertically and horizontally  
in all three dimensions – which makes  
perfect sense for your body. This way  
you can combine mental and physical  
activity. The perfectly engineered  
Aeris 3Dee means sitting at your desk  
will never be the same again.

3Dee

 aeris

## The best way to improve concentration is to keep your body moving.

By moving up and down, the body remains active and blood flow to all your organs – including the brain – is increased. This promotes concentration and strengthens your back.

## Brings life to sitting.

The Aeris 3Dee allows unrestricted movement, encourages deeper breathing and boosts circulation and metabolism. Thanks to the chair's pivotal joint being so close to the floor, your upper body can move in all directions, and the back remains naturally straight, even when you're leaning forward.

## Freedom of movement.

Specially designed not to impede movement, the half-height backrest with lumbar curvature, slat technology and back-shaped cushion provides crucial support – without restricting movement.

So even when you're sitting down, you can still move freely and easily.

The 3Dee is easy on the eye as well as on the back. Customise your personal executive chair in your favourite colour.

### Seat- and seat cover colour

Each chair is handmade in Germany with dedicated care and precision.

It was about time to reinvent the way we work and live.  
So that's just what we did.

The issue: We sit too much and don't move enough.  
This is detrimental to our health. The lack of activity  
robs us of our concentration, energy and creativity,  
even after a short amount of time.

The solution: Aeris is driven by the goal of keeping  
our bodies in constant movement. Our products and  
concepts contribute to an active and healthy lifestyle.  
They enable movement in precisely the areas where  
it's least expected, but where it's needed the most  
– when sitting.

We are your secret ingredient for a more active,  
healthier and subsequently happier life.
