

RBM

New Colours

RBM

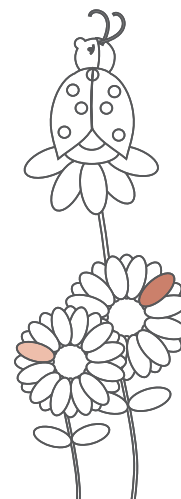

Colouring-in is more than a childhood activity; it's an act of expression through the use of colours.

The new RBM palette offers a range of fresh colours that were curated in collaboration with the Swedish Design Studio, Form Us With Love. The purpose is to create a distinct visual identity and aesthetic coherence within the RBM furniture range, energising authentic Scandinavian values.

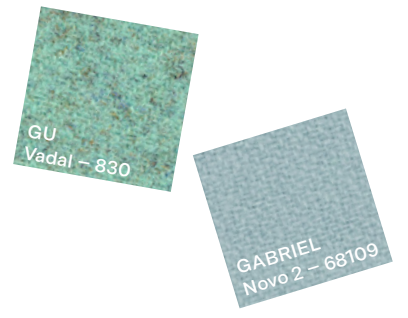

"Together we worked with the palette from RBM's heritage and added a spark of fresh colours and materials. The overall effect is cohesive, sophisticated and contemporary."

John Löfgren
Form Us With Love

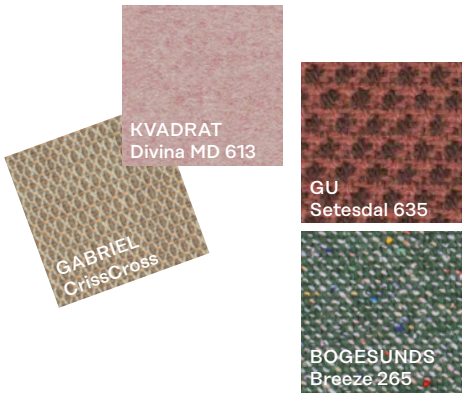

Colouring
rooms

RBM colours bring life to any room. The new options give numerous combinations and more freedom to find your expression.

RBM chairs and tables come as a wide range of combinable products with its simple lines, supportive shapes and vivid colours. The new, delicate colour palette makes it easy to combine with different materials and existing interior.

The fresh RBM colours provide a natural feel through muted tones. The earthy and organic expression of colour can also be linked back to RBMs strong environmental focus.

The RBM collection opens opportunities for unexpected combinations of colours and materials. So be it an auditorium with 500 seats, or an intimate dining room, you have the tools to create your expression.
